

THE ORIGINAL BRAND

PERSPEX® – THE ORIGINAL. SINCE 1935.

3A Composites is inventor and manufacturer of PERSPEX® – the original acrylic sheet launched in 1935. PERSPEX® acrylic sheets are well known as one of the world's highest quality acrylic materials. Their impressive features include light weight, high transparency, countless colour options, flexible formability and resistance to light and breaking. The versatility of PERSPEX® acrylic glass serves as a valuable source of inspiration for designers from all over the world. It is hard to believe that this modern and versatile material has been manufactured for over 90 years.
